

Before It Rains:

- ✓ Sign up for Alert San Diego notifications for all your telephone numbers.
- ✓ Make sure you know the safest routes to and from home should flooding occur.
- ✓ Create a family communication plan to stay in touch with loved ones.
- ✓ Protect your pets. Be sure they have proper identification (microchip).
- ✓ Have transportation ready for all larger animals under your responsibility.

When Rains Begin:

- ✓ Leave early if your property is in a flood zone. Water levels can rise fast once storms start so don't hesitate to move.
- ✓ Follow all instructions issued by public safety personnel.
- ✓ Take advantage of shelters and staging areas. There will be important resources available should they be established during storms.
